Education

ICFAI University, Jaipur

Bachelor of Technology in Computer Science and Engineering (CGPA of 9.61)

2017 - 2021

Rajasthan, India

Experience

Team Geek Solutions

Sept 2021 – Present

Software Developer

Pune, India

- Developed and maintained web applications using React, NextJS, HTML, CSS, and JavaScript.
- Made APIs using NodeJS and Python and deployed on AWS lambda and developed generic modules for frontend usage.
- Worked on configuring bundlers (webpack, vite) and the CI/CD pipeline for various projects.
- Worked with AWS services including but not limited to S3, EC2, API Gateway, Elastic Beanstalk, Sns, Lambda, RDS, CodePipeline, Route 53, CloudFront Distributions, Amplify, etc.
- Collaborated on multiple bug fixes and worked on migration of different packages.

Team Geek Solutions

July 2021 – Sept 2022

Software Development Intern

Pune, India

- Worked on industry-grade web applications.
- Learnt React workflows (i.e. Redux, Hooks, ContextAPIs, etc.) and NextJS features (i.e. Pages, API routes, SSR, static site rendering, etc.).

Projects

Fitness website for coaches and clients | NextJS, Material-UI, NodeJS, MySQL

Feb 2021 - July 2021

- Coaches list and package list of each coach on their separate pages.
- User registration, package selection, appointment booking.
- Payment gateway

Hiring and Evaluation Platform for HR team | ReactJS, Python, MongoDB, MySQL

Dec 2022 - July 2023

- Onboarding and profile creation
- Test module for the screening tests

A TypeForm Component | ReactJS and Recoil

Dec 2023 - Jan 2023

- Replicated TypeForm
- Additional button presses and smooth navigation

Online Compiler | NodeJS, ExpressJS

March 2023 - April 2023

- Compile code for various languages.
- Test case execution for the problems

Technical Skills

- ReactJS with Redux and NextJS
- Web Fundamentals (HTML, CSS, JavaScript)
- Bundlers (Webpack, Vite)
- API development using AWS Lambda
- Deployment of web applications using AWS
- AWS services like S3, EC2, API Gateway, Elastic Beanstalk, Sns, Lambda, RDS, CodePipeline, Route 53, CloudFront Distributions, Amplify etc.

Minor/Honors Courses:

1. Programming, Data Structures and Algorithms using Python by NPTEL
2. Fuzzy Logic and Neural Networks by NPTEL
